

VP800

Multi-Comm Hub

Smarter Checkout. Seamless Connection.

The Multi-Comm Hub connects your VP800 POS to peripherals like cash drawers effortlessly, keeping devices secure and reliable so your checkout is faster and your focus stays on customers.

Key Features

Effortless Integration

Plug it in with the VP800 POS device, connect your cash drawer, and you're ready to roll.

Compact & Durable

Small enough to fit anywhere and built tough for the daily grind of retail.

Plug-and-Play Setup

No complications in installations! Just connect and go.

Reliable Performance

Consistent, secure communication between devices keeps your checkout running without a hitch.

Note

The Multi-Comm Hub includes the following ports for ultimate connectivity:
2 Ethernet ports, 2 USB Type-A ports, and 1 USB Type-C port.

Power Up Your VP800 Today

The Multi-Comm Hub isn't just an accessory — it's the add-on your POS terminal has been waiting for.

Why Merchants Love It

Cuts down on charging chaos

Speeds up transactions and reduces queues

Gives you better control over operations

Makes your team look like checkout superheroes
